

Town of Beaverlodge 2021 Municipal Election Candidate

Name: *Cal Mosher*

*I have been a resident of the Town of Beaverlodge for the past thirty-one years. I have lived in many areas of this country and viewed this Town to be one of the better communities to live in. It is a small town but we are fortunate to have many of the amenities bigger centres do.*

*I have been on Town council for the past four years. It was my first time on Town council and it was a huge learning curve getting to know the Alberta municipal rules and what it takes to operate a town of this size. In finishing this term on council, I feel that we have a strong administration and staff. We have moved the Town office to the old court house from the basement of the community centre which was extremely beneficial for the health of the staff and also the access to the Town office for our seniors. We are moving forward in getting a much-needed firehall and health centre. Our water supply for the town is being upgraded to support the Town's needs for many years to come. Our streets are also a concern as the cost to keep them in good condition is huge. This will be one of the bigger challenges going forward. We have worked with administration to help mitigate future flooding issues. We have maintained our parks and I note that they are being well used. Perhaps we can put a plan in place for walking trails that proceed to the parks. I have learned that in speaking with other municipalities, we all have similar issues, that being keeping taxes at a manageable level while keeping our municipalities progressive and functional.*

*I have entered my name as a candidate for council in the upcoming municipal election. I would appreciate your support.*
